CampusNotes - Academic Study Resource

DEPARTMENT OF COMPUTER SCIENCE & ENGINEERING - SEMESTER 5

OFFICIAL ACADEMIC STUDY MATERIAL - CSE CURRICULUM

Assignment 4: Optimization Techniques & Decision Science

Course: Multidisciplinary Minor-III [23CSMDXX]
Category: Assignments | Assignment #4 | Academic Year: 2026-27

---

1. Overview & Objective:

Linear programming, constraint satisfaction, and multi-criteria decision-making algorithms.

2. Assignment Problems & Instructions:

1. Formulate primal and dual linear programs with resource constraints.
2. Solve optimization problems using Simplex and interior-point computational methods.
3. Apply Analytic Hierarchy Process AHP for multi-objective engineering trade-offs.
4. Implement integer programming for workforce scheduling and logistical routing.

Submission Guidelines & Verification:

This document verifies end-to-end PDF storage, preview, and download for CampusNotes.
Administrators can safely edit metadata, publish/unpublish, or replace this document.
